

2022 Candidate Survey on the Environment

Raghib Allie-Brennan Democrat
House , 2

OPEN QUESTION

Communities throughout Connecticut are experiencing the effects of climate change, and it's critically important that the legislature continues to take steps to protect the health of our environment and ensure the resiliency of our communities. I was proud to bring critical pieces of legislation to the House Floor last session, including An Act Concerning the Commercial Property Assessed Clean Energy Program, which offers businesses a tool to pay for zero-emission vehicle infrastructure and resiliency measures, to address the climate crisis. I was also proud to be part of some of the biggest environmental legislative wins last session, including the passage of the Bottle Bill and restricting toxic chemical PFAS. I look forward to continuing to work with my colleagues to advance legislation that protects the health of our air and water, combats pollution and grows renewables. I am also looking forward to championing legislation that helps protect our bear population.
