

2020 Candidate Survey on the Environment

Quentin Phipps Democrat
House , 100

1) 100% Zero Carbon:

Do you support codifying this legislation?

- Yes

2) Environmental Justice:

Do you support the provisions that were contained in the Environmental Justice legislation?

- Yes

3) Municipal Funding Option :

Would you support legislation to allow, but not require, municipalities to establish a dedicated fund for local open space, farmland, water resources climate mitigation strategies through a limited conveyance fee on buyers of real estate?

- Yes

4) Bottle Bill :

Do you support modernizing Connecticut's bottle bill by 1) expanding the list of beverage containers accepted, 2) raising the deposit amount on covered containers, and 3) raising the handling fee paid to authorized dealers for each container they collect?

- Yes

Generally, I support the bottle bill to encourage the return of bottles from consumers. However, I'm still concerned about the increased expense for families with limited income. I recognize that these fees are returned but the initial output would still hurt those with the least means the most. I'd be interested in creating legislation that would

make it easier for families to return fees or charge different rates for those on SNAP or other assistance programs.

5) Climate Change Education:

Do you support a requirement to teach climate change education in public schools?

- Yes

6) Transfer Act:

Do you support switching to a release-based cleanup program that would require sufficient DEEP oversight, mandated reporting of all cleanups and other safeguards to ensure a successful program that increases the number of sites cleaned?

- Yes

7) MDC Water:

Would you support legislation to require rates set by MDC to be approved by PURA (the state regulatory authority that sets rates for private water utilities)?

- Yes

8) Per-and polyfluoroalkyl substances (PFAS):

Do you support advancing legislation that would prohibit PFAS chemicals wherever possible?

- Yes

9) Chlorpyrifos:

Will you support legislation to ban the sale and use of Chlorpyrifos in CT (as was the intent of House Bill 301 considered earlier this year)?

- Yes

10) No New Gas Infrastructure:

Will you oppose a tax on CT ratepayers to fund new gas pipelines?

- Yes

Open Question:

What environmental issues have you worked on? What will be your top environmental priority for the 2021 legislative session?

- I'm looking to work on bringing the best practices around grid resiliency and sustainability best modeled by Hawaii's legislation here to Connecticut. We should be encourage solar, wind, and battery storage. We also need to continue elevating environmental justice and the unfair impact pollution has had on urban communities and communities of color.
