There's a housing crisis in Connecticut. Too m any families cannot afford to live here. I oppose making homes more expensive. I prefer to devote other revenue sources to this worthwhile program.

- Yes

5) Climate Change Education:

Do you support a requirement to teach climate change education in public schools?

Will you oppose a tax on CT ratepayers to fund new gas pipelines?

- Yes

Open Question:

What environmental issues have you worked on? What will be your top environmental priority for the 2021 legislative session?

- My favorite remains indoor air quality in schools. It's time for a follow-up, particularly because the potential to spread air-borne viruses within a sub-standard air system is too great. I also will continue to fight for water quality in places such as Lake Candlewood.

Additional Comments:

- My record for over thirty years on environmental issues has been among your highest. I look forward to working with CTLVC in the 2021-2022 term. Thanks for all you do.
