

2022 Candidate Survey on the Environment

Kate Farrar Democrat
House , 20

OPEN QUESTION

I worked substantially on securing the rebate for electric bicycles in the passage of the CT Clean Air Act. Electric bikes are another transportation alternative to reduce emissions throughout our state. My top environmental priority for the 2023 legislative session is to protect trees and expand urban forestry. The environment matters to me because we have one planet and it's up to us to protect it.
