

## 2024 Candidate Survey on the Environment

David Herz, Republican  
House District 126

**1) Open Question:**

Get rid of non-green "green energy" initiatives. End the environmental disaster that is windmills and mandates for electric cars. Consider nuclear.

**2) Climate:**

**Will you support paying for increased investments in clean energy and our electric grid infrastructure to ensure a healthy environment that will reduce reliance on fossil fuel and nuclear energy (and ultimately reduce costs to ratepayers)?**

- No

Carbon emissions are not correlated with climate change. To spend billions on this issue is a breach of the public trust.

**3) Nature-Based Solutions:**

**Will you support a stand-alone bill that authorizes and prioritizes the use of nature-based solutions (forests, trees, wetlands, riparian buffers, healthy organic soils, and other natural ecosystems) as the preferred alternative, where appropriate, across all agencies?**

- No

**4) Clean Cars and Trucks Emissions Standards:**

**Do you support Connecticut's adoption of the latest California emissions standards for cars and trucks?**

- No

When you factor in all the environmental costs, "clean vehicles" are anything but that.

**5) Environmental Rights Amendment:**

**Will you support an Environmental Rights Amendment to our State Constitution?**

- No

**6) Food Waste Diversion:**

**Will you support designating food scraps as a "recyclable" item and requiring large-scale food generators to create plans to donate edible food?**

- Unsure  
It makes sense at some level. I prefer a move toward composting, maybe chickens in every third yard.

**7) Neonicotinoids:**

**Will you help push for legislation to ban the sale and use of neonics for non-agricultural use in Connecticut?**

- Yes

**8) Rodenticides:**

**Will you support banning the use of certain rodenticides, with a few well-defined exceptions, to help prevent the deaths of its unintended victims?**

- Yes

**9) Environmental Justice:**

**Will you support a legislative fix to Connecticut's Environmental Justice statutes to include all polluting facilities?**

- No  
I would have been against the original initiative as well.

**10) Bears:**

**Will you support legislation that requires humane responses to conflicts with wildlife such as providing better support for the public seeking help, removing attractants, minimizing shooting incidents, and strengthening programs to deal with orphaned wildlife?**

- No

**11) Tree Cutting Protocols:**

**Will you support legislation to require stronger science-based tree cutting protocols based on conservation values?**

- No  
I am against excessive government meddling.

**12) Ranked Choice Voting:**

**Should Connecticut pursue Ranked Choice Voting?**

- Unsure
