1) Open Question:

Getting rid of PFAS and harmful pesticides. I expressed support for the California standards. I will look to environmental organizations and strong environmentalists in my district to suggest our priorities for 2025.

2) Climate:

Will you support paying for increased investments in clean energy and our electric grid infrastructure to ensure a healthy environment that will reduce reliance on fossil fuel and nuclear energy (and ultimately reduce costs to ratepayers)?

- Yes

3) Nature-Based Solutions:

Will you support a stand-alone bill that authorizes and prioritizes the use of nature-based solutions (forests, trees, wetlands, riparian buffers, healthy organic soils, and other natural ecosystems) as the preferred alternative, where appropriate, across all agencies?

- Yes

4) Clean Cars and Trucks Emissions Standards:

Do you support Connecticut's adoption of the latest California emissions standards for cars and trucks?

- Yes

5) Environmental Rights Amendment:

Will you support an Environmental Rights Amendment to our State Constitution?

- Yes

6) Food Waste Diversion:

Will you support designating food scraps as a "recyclable" item and requiring large-scale food generators to create plans to donate edible food?

- Yes

7) Neonicotinoids:

Will you help push for legislation to ban the sale and use of neonics for non-agricultural use in Connecticut?

- Yes

8) Rodenticides:

Will you support banning the use of certain rodenticides, with a few well-defined exceptions, to help prevent the deaths of its unintended victims?

- Yes

Will you support a legislative fix to Connecticut's Environmental Justice statutes to include all polluting facilities?

- Yes

10) Bears:

Will you support legislation that requires humane responses to conflicts with wildlife such as providing better support for the public seeking help, removing attractants, minimizing shooting incidents, and strengthening programs to deal with orphaned wildlife?

- Yes

11) Tree Cutting Protocols:

Will you support legislation to require stronger science-based tree cutting protocols based on conservation values?

- Yes

12) Ranked Choice Voting:

Should Connecticut pursue Ranked Choice Voting?

- Unsure
Many people I respect are advocating for RCV, but I still haven't made up my mind. I admit that I haven't studied the history and results of RCV and will do so if this comes before the legislature. Given progressives support for this approach, it is more likely than not that I will support it.
