

2022 Candidate Survey on the Environment

Moira Rader Democrat
House , 98

OPEN QUESTION

As a first-time legislator, i look forward to working with colleagues in both the House and Senate to enact meaningful and impactful legislation around conserving and sustaining our environment. As a mother of four teenagers and vocal community activist serving my second term on the Guilford Board of Education, I stand firmly in support of the work the CTLCV does in working to find viable, long-term solutions to ensure an environment that is sustainable and a future that is viable for the next generations. Our children are looking to us to take measurable steps to reverse climate change and find innovative ways to live in harmony with our natural environment. Education at an early age is key to building an environmentally-based conscience around our everyday behaviors and choices. Through advocacy, education and real-time changes, I see so many legislative opportunities to address environmental issues head on. Collaboration is key to any success story, so I look forward to learning and collaborating more about CTCLV and how I can be a voice for the environmental needs of CT and beyond.
