

2022 Candidate Survey on the Environment

John Rasimas Republican
House , 101

OPEN QUESTION

I believe in passing on a safer and cleaner world to our future generations

1) ENVIRONMENTAL JUSTICE:

- Yes

I understand the legislation and agree with the goals desired. I would not want to economically harm those areas as well

2) WASTE MANAGEMENT:

- Yes

We need to ensure safe, healthy and reliable waste management systems

3) POLYSTYRENE:

- Yes

I understand the legislation and agree with the goals desired. I would not want to unnecessarily harm those industries economically as well

4) PFAS:

- Yes

I understand the legislation and agree with the goals desired. I would not want to unnecessarily harm those industries economically as well

5) NEONICOTINOIDS:

- Yes

I would need additional information to understand the ramifications of banning such products

6) RODENTICIDES:

- yes

I see no reason why these should not be banned in parks and public spaces

7) DIESEL BACKUP GENERATORS/DATA CENTERS:

- Yes

I understand the legislation and agree with the goals desired. I would not want to unnecessarily harm those Centers economically as well

8) BEARS:

- yes

I believe we should do all that we can do using non-lethal measures

9) TREE CUTTING PROTOCOLS:

- Yes

I see no need for using aggressive tree cutting strategies unless there is an immediate public safety concern.

10) COMMUNITY SUSTAINABILITY:

- Yes

While affects on taxpayers must always be considered, municipalities should be provided the option to create such funding sources

11) RIPARIAN BUFFERS:

- Yes

I would support such action with the caveat that certain circumstances may not allow for the prudent development of such areas.

12) RANKED CHOICE VOTING:

- yes
-
