Do you have a primary? Yes _____ No _____ Are you an incumbent?
 Yes _____ No _____

Part 1: If elected, what position do you expect to take on the following environmental issues?
 Please mark boxes named "Support," "Uncertain," and "Oppose" with an x.

T o p i c	Question	Support	Uncertain	Oppose
Parks	Would you support state park and forest revenues going to park and forest operations and maintenance rather than to the General Fund?	yes		
Comments:				

Transportation	CT is one of the 10 states most dependent on federal funds as a percentage of their transportation expenditures. More than half of the states and localities have moved forward on increasing their funding share. Do you favor this and how might we do it in CT?	question is unclear. We absolutely should stop raiding the Special Transportation Fund. Those funds should be used for Transportation period. We should be encouraging more efficient use of mass transit and fund it properly.

Property Tax Reform

- CT's property tax burdens small towns, strangles cities, undermines mass transit and drives sprawl. Would you be an advocate on behalf of the environment in the tax reform debate, especially with regards to property tax?

	Need more details but would entertain the discussion.

<i>Topic</i>	<i>Question</i>	Support	Uncertain	Oppose
Pesticides	The American Academy of Pediatrics and many other science and medical institutions have warned that pesticides (including herbicides) are harmful to			

	<p>human and ecological health. CT has a ban on use of lawn care pesticides on grounds of elementary and middle schools. Would you support legislation to extend this ban to high schools and public parks where children play?</p>			
<p>Comments:</p>				
<p>Pesticides</p>	<p>Should towns have more authority to limit or guide pesticide applications within their borders, including roadside spraying and applications of pesticides in wetlands and surface water?</p>	<p>Yes</p>		
<p>Comments:</p>				
<p>Water Source Protection</p>	<p>CT normally uses decades old data for setting standards and guidance for stormwater management. Would you support requiring the state to</p>	<p>support, we need to upgrade the standards absolutely</p>		

	<p>upgrade its standards using scientifically validated, up-to-date statistics on volumes of water associated with extreme storms and annual precipitation?</p>

<p>Microbeads</p>	<p>Many personal care products such as shampoos and toothpaste are being manufactured using tiny plastic microbeads . Once microbeads are washed down the drain, they can enter lakes, rivers, and eventually the ocean through sewage overflows or pass through sewage treatment plants. Microbeads, like other plastics, can absorb toxic chemicals.</p>			

	<p>They can be mistaken for food by aquatic life and can be passed up the food chain to larger fish, wildlife, and humans. Would you support legislation to protect our waterways from this new environmental threat?</p>			
--	---	--	--	--

Comments: Need to learn more about Microbeads. Does not make sense that they are allowed into products that then become a hazard to aquatic life.

Conservation Lands

Would you support passing a state Constitutional Amendment to better protect state conservation lands from being given away for non-conservation purposes?

Yes, Though t we passed that this year...

Comments:

Energy	Would you support policies or legislation to protect and expand the state's cost-effective energy efficiency programs opposing any attempts to raid the CT Energy Efficiency Fund for state budgetary needs?	Very much support		
---------------	--	-------------------	--	--

Comments:

Energy	While other states promote shared net metering and sub metering for solar, fuel cell and other distributed renewable sources, CT imposes regulatory barriers that effectively prevent development of these projects in our state. Would you support	yes, but need to learn more details, certainly support the concept		
---------------	---	--	--	--

	legislation that removes these barriers and enable clean renewable distributed generation to move forward?			
Comments:				
Toxins	Would you support legislation that requires the Department of Public Health to identify chemicals of high concern to children, manufacturer disclosure of those chemicals and a process for recommendations to reduce exposure?	Yes, a process to reduce exposure is a good idea.

Part 2: What environmental issue has lacked the attention in Connecticut that it deserves? As a legislator, what will you do to change that? More state funding to preserve open space, large landscape and city parks. Essential for health of mind and body in our ever increasing development.

Part 3: What are the environmental priorities in your district?

Preserving open space, protecting the health of LIS, educating constituents on coastal resilience.

Part 4: If you are elected, what would be your top environmental priorities for the 2014 legislative session? Please identify up to three and rank the three in order 1, 2, or 3:

- 1. Parks
Transportation
Pesticides
- 2. Water Source Protection
Microbeads
- 1. Conservation Lands
- 3. Energy
Toxins
Property Tax Reform
Other (please explain)
